Exhibition catalogue of the Pop artist Claes Oldenburg and Coosje van Bruggen

Ivorypress in collaboration with PaceWildenstein Gallery of New York, presents a Claes Oldenburg exhibition. Oldenburg (Stockholm, 1929) is considered one of the most outstanding representatives of American Pop. The main pieces of this exhibition are objects which are in a state of transition and that are not part of contemporary life; the artist and his wife/collaborator Coosje van Bruggen (1942-2009) play with the notion of history as a continuity of disharmony.
